The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠-L.MC., ✠-NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column* 1, *the* ✠ *signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* drp.—*Damage repairs, of Machinery.* lrp.—*Large repairs.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots … indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.*
✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* drp.—*Damage repairs, of Machinery.* lrp.—*Large repairs.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) Drp.—Damage repairs, of Machinery. Lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *✠) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, *that the Vessel is built of Iron. The note * (thus, * ⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 8,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, ~~3,82~~) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A *ring in red (O) over* A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. In Column 1, the ✠ the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) trp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad △ *, that the Vessel is built of Iron. The note * (thus, * △) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ L.MC., ✠ NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 9, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note* * (*thus,* *A) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red* (○) *over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black* (○) *in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the* ✠ *signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. srp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel w one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment nu in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Char in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The ⚓ *, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, t signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ½ indicates Special Survey of Machinery or Boilers during construction, (thus, ½-L.MC., ½-NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. A'p.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

B.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 6,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. lrp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column* 1, *the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠-NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠-L.MC., ✠-NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ L.MC., ✠ N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* Irp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Co'umn 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn at from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction,* (thus, ✠L.MC., ✠N.E.&B.) lrp.—*Large repairs.* drp.—*Damage repairs. of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠-NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with ~~date~~ under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The brand A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.C.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring is red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Constructed by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ~~A~~, *that the Vessel is built of Iron. The note * (thus, * ~~A~~) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ L.MC., ✠ NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note* * (thus, *A) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. dry.—Damage repairs of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠-L.MC., ✠-NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numerals in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Class in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The △, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) round the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠-N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note* * (thus, *A) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the* ✠ *signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction. (thus, ✠ L.MC., ✠ NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs. of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * ⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented, Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. d—.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,89) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,89) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request.* *The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The broad* A, *that the Vessel is built of Iron.* *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Column 1, the ✠ signifies that the Vessel was built under Special Survey.* *B.Hds.—Bulkheads.* Cem.—*Cemented.* Asp.—*Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note* * (thus, *A) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots … indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, e, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (3) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. ar.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 23. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&S.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12*th*, 13*th*, *and* 14*th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column* 13 *three dots* ... *indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column* 13, *indicate the letters and equipment numbers in Table No.* 22. *In Column* 14 *a black line with date under it (thus,* 3,82*) indicates that, at that date, the Vessel,* from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus,* 2,82*) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad* A, *that the Vessel is built of Iron. The note* * (*thus,* A*) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red* (○) *over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black* (○) *in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column* 1, *the* ✠ *signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠L.MC., ✠NE.&B.) *drp.—Damage repairs, of Machinery. lrp.—Large repairs.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 4,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠-L.MC., ✠-NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. A ring in red (O) over the* ✠ *signifies that the Vessel was built under Special Survey. In Column 1, the* ✠ *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs. of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lry.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 5,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 9 the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * ✠A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (C) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads, Cem.—Cemented, Asp.—Asphalted,*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. d.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

* L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ L.MC., ✠ NE.&B.)* drp.—*Damage repairs, of Machinery.* lrp.—*Large repairs.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note* * (thus, *A) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction;* (thus, ✠L.MC., ✠N.E.&B.) lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction. (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

. The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters *a*, *b*, *c*, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, $\overline{3,82}$) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, $\overline{3,82}$) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

▲ *The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots • • • indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction. (thus, ✠-L.M.C., ✠-N.E.&B.) lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* lrp.—*Large repairs.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ½ indicates Special Survey of Machinery or Boilers during construction, (thus, ½ L.MC., ½ NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Columns 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs. of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,82~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 2,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 9, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 5,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. Cmp.—Compass repairs of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request.* *The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The broad* A, *that the Vessel is built of Iron.* *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Column 1, the ✠ signifies that the Vessel was built under Special Survey.* *B.Hds.—Bulkheads.* Cem.—*Cemented.* Asp.—*Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* drp.—*Damage repairs, of Machinery.* lrp.—*Large repairs.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the End of the Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots … indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠-L.MC., ✠-N.E.&B.) lrp.—Large repairs. Asm.—Thorough examination of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request.* *The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The broad* A, *that the Vessel is built of Iron.* *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Column 1, the ✠ signifies that the Vessel was built under Special Survey.* *B.Hds.—Bulkheads.* *Cem.—Cemented.* *Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠, indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. M.D.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 23. In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MC.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. lrp.—Large repairs. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery.

320												

The 12th, 13th, and 14th Columns left blank indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request.* *The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,82) indicates that at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The broad* A, *that the Vessel is built of Iron.* *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require.* *A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Column 1, the ✠ signifies that the Vessel was built under Special Survey.* *B.Hds.—Bulkheads.* Cem.—Cemented. Asp.—Asphalted.

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 9, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * ⚓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.A.MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ·|· indicates Special Survey of Machinery or Boilers during construction, (thus, ·|·L.MC., ·|·NE.&B.) lrp.—Large repairs. Arp.—Damage repairs. of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (C) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

Cont.Cal.*Jun.*81-6yrs

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. The letters a, b, c, &c., in Column 13, indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, *that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs of Machinery.*
